

Memo from  
JOSHUA LEDERBERG

To:  
Ambassador Leonard  
ACDA

JAN 25 1971

Non-~~proliferation~~ subornation of CW.

It was a treat to have you out here: for the faculty group, for the students; and for me to have the time for a leisurely but searching conversation.

Some further thoughts on some possible initiatives to un-stall the CCD on the BW/CW issues are enclosed. I hope my writing is clear enough to you (or your secy.)

Also some remarks on an approach to tacit agreements on tear-gas and herbicides. (I realize the problem here may be @ Pentagon.)

I was not planning any trips to Washington before March 29-31. However, if you feel there is any useful role I can play before then, on U.S. initiatives on LIFE FOR PEACE, please whistle.

Sincerely,
